Countertop Water Filter

## Pure Water

from your faucet  
with the filter **Torayvino SW5**

*hollow fiber membranes inside*

**Removes**  
**Residual chlorine**  
**Turbidity**  
**impurities and odors**  
**99.99% of bacteria**

### Pure water

Removes the dirt and odor from water

Compact and easy to install water purification filter

Torayvino SW5 enhances your daily life by removing bacteria, harmful organic compounds and chlorine while keeping all the good minerals in your water with a double filtration system.

### Made easy

- Hi-Flow allows maximum flow rate of 4 liters per minute
- Easy to install tap adapters for easy installation in kitchen faucet

### Toray company and technology

1968, toray began the research of membrane water treatment technologies and has developed many types of membrane to separate the impurities in different sizes for the perfect water purification. Toray is currently one of the leading companies in the world. The hollow fiber membrane applied to water purifiers Torayvino developed based on medical technology, used for artificial kidneys. The bacteria reduction performance test complies with the Japan Water Purifier Association's (JWPA) Voluntary Standards for Water Purifiers. The water filter has been shown to remove 99.99% of bacteria as defined by the standards.

# torayvino

Removes from water

Chlore, chlorine derivatives 80%

Bacteria 99,9%

Bad taste & odor 99%

Solid particles - dirt, sand, mud 99,9%

Filters up 8000 liters

Flow of filtered water 4lit/min

**1 year warranty**

## Filtered water on tap Specifications

### General Specifications

- 3 switching modes:
  - 1) unfiltered straight
  - 2) unfiltered spray
  - 3) filtered water
- Replacement filter: SWC
- Accessories: 4 adapters on tap Easy to install no tools needed Quick Fit
- 360° rotating tap of filtered water

### Technical specifications

- Key ingredients Filter: Membrane filtration polysulfide fiber, activated carbon
- Minimum inlet water pressure: 1 bar
- Maximum inlet water pressure: 3,5 bar
- Water flow rate: 4 L / min
- Minimum water temperature: 5° C
- Maximum water temperature: 35° C
- Lifetime filter: Approximately 10-12 months

### Dimensions and weight

- Dimensions (L x W x H): 11,5 x 11,5 x 24 cm.
- Product weight: 1,16 kg.
- Packaging dimensions (L x W x Y): 19 x 14 x 25 cm.
- Packaging weight : 1,5 kg.
- Product quantity per packaging: 1

### Logistic details

- Quantity per box: 6 pcs.
- Country of origin Japan

## Characteristics

### Water Filter Torayvino SW5

The new countertop water filter SW5-EG from Torayvino is an excellent choice for water filtration right on your kitchen counter. The system is connector to your faucet with the included adaptors to fit all types and can be placed on any surface, since it provides a stable grip with the rubber suckers on the bottom. The filter is consisted of fine granular activated carbon, activated coral powder and hollow fiber membranes. The replacement cartridge can filter up to 8000 liters with a flow rate of 4 L/min and lasts for about 10 to 12 months, depending on the water quality at home. Designed for placement on the kitchen counter, this long-lasting filter cartridge is suitable for using larger amounts of clean water. Toray's secret for pure and delicious water is its special system construction, which features a "four-stage filtering system".

### Hi-Flow

This counter top filter has a maximum flow rate of 4 liters per minute, which is slightly different from the regular flow rate of a non-filtered water. By simply rotating the water selection lever, you also have a choice of either a stream or a spray of unfiltered water or a spray of filtered water.

#### 1 Prescreen

Removes rust, sediments and bigger particles.

#### 2 Precision Filter

Removes large particles of turbidity.

#### 3 Fine granular Activator Carbon (GAC)

Japanese-made high-performance activated carbon, provides almost complete absorption of odor in the water, filters out the chlorine, organic compounds and oxygen consumption.

#### 4 Activated Coral Power

The use of activated coral powder, which is made from natural coral, adds healthy minerals to the water.

#### 5 Hollow Fiber Membrane Bundle

Toray core technologies hollow fiber membrane filtration has precision of up to 0,1 microns. The multi-layer structure can forcefully remove rust, bacteria and organic matter, effectively remove chlorine, turbidity and retain beneficial mineras as calcium and magnesium. Such hollow fiber membranes are widely used in the medical field and the field of artificial kidney dialysis.
